# In this book

The **Reading Eggspress Spelling** program provides instruction on spelling rules, strategies and generalisations. Each lesson focuses on a core set of 20 words, plus 10 challenge words to extend students. Answers are included.

The crafted word lists are based on the sound, structure and meaning of words, and were created to align with the following components of the Australian Curriculum:

## Australian Curriculum content codes and descriptions

**ACELA1457** – Manipulate phonemes in spoken words by addition, deletion and substitution of initial, medial and final phonemes to generate new words

**ACELA1458** – Use short vowels, common long vowels, consonant digraphs and consonant blends when writing, and blend these to read single syllable words

**ACELA1459** – Understand that a letter can represent more than one sound and that a syllable must contain a vowel sound

**ACELA1778** – Understand how to spell one and two syllable words with common letter patterns

**ACELA1455** – Recognise and know how to use simple grammatical morphemes to create word families

**ACELA1821** – Use visual memory to read and write high-frequency words

**ACELA1822** – Segment consonant blends or clusters into separate phonemes at the beginnings and ends of one syllable words
